

**Westminster Chamber Congratulates
2009 Business of the Year**

SHORELINE AMBULANCE

In May 2006, *Shoreline Ambulance* became one of Orange County's newest fully licensed Ambulance Services providing Basic Life Support, Critical Care and Neonatal transportation services. It is their mission to provide pre-hospital emergency care and medical transportation utilizing the best people, practices and equipment possible within our integrated public safety and non-emergency health care system.

The vision at *Shoreline Ambulance* is to show continued leadership in the provision of emergency medical care and transportation. They meet or exceed regional, state, and national benchmarks in pre-hospital care through strong employee involvement and a continued focus on our community. They serve with commitment to individual and organizational learning, continually evaluating and embracing changes that will benefit their customers while being a cooperative partner in the local emergency medical and hospital systems.

Shoreline personnel work with the best equipment and vehicles available—investing heavily in patient care equipment and technology—and receive continuous in-service training on the newest theories and applications in emergency medicine. More than the medicine, however, is their dedication to the complete needs of their patients and families. *Shoreline Ambulance* personnel deliver more than treatment each time they are called, they deliver compassion at every opportunity, providing the best care for their patients, and the safest, most appropriate responses and transports.

Serving the Westminster Community comes naturally to the owners of *Shoreline Ambulance*, who both hail from Westminster. ABRAZAR, Inc. and Boys & Girls Club of Westminster are two of the many agencies and programs throughout our City that benefit from *Shoreline's* generosity. *Shoreline Ambulance* owners and staff have been very involved in the preparation and the distribution of ABRAZAR, Inc.'s 'Christmas Basket' program helping with the advance packing and on the event day loading up vehicles with \$250-\$275 worth of groceries—approximately 500 hours of physically demanding work each year!

For the past three years, *Shoreline Ambulance* has provided free First Aid and CPR training for 100 individuals annually for both ABRAZAR and Boys & Girls Club of Westminster staff who are required to have active certificates as they work with children during the school year and summer programming.

Additionally, *Shoreline Ambulance* has sponsored and supported the Chamber's annual Public Service Awards Luncheon, State of the City Luncheons and the Taste & Tour of Little Saigon. They annually sponsor the Westminster Mayor's Ball, Westminster Mayor's Prayer Breakfast, Westminster School District's Back Pack give away. *Shoreline* has been recognized, among other things, for their participation in the Viet Loves Haiti fundraiser and received the first ever Vietnamese American Freedom Fighter Award in 2009 for their participation in the Black April Event. And each year, *Shoreline Ambulance* donates generously to display the Vietnamese flags throughout Westminster and Garden Grove.

It is with great pride that Westminster Chamber of Commerce names *Shoreline Ambulance* as the 2009 Business of the Year!
